OVERVIEW DIAGRAM

Studio Plan

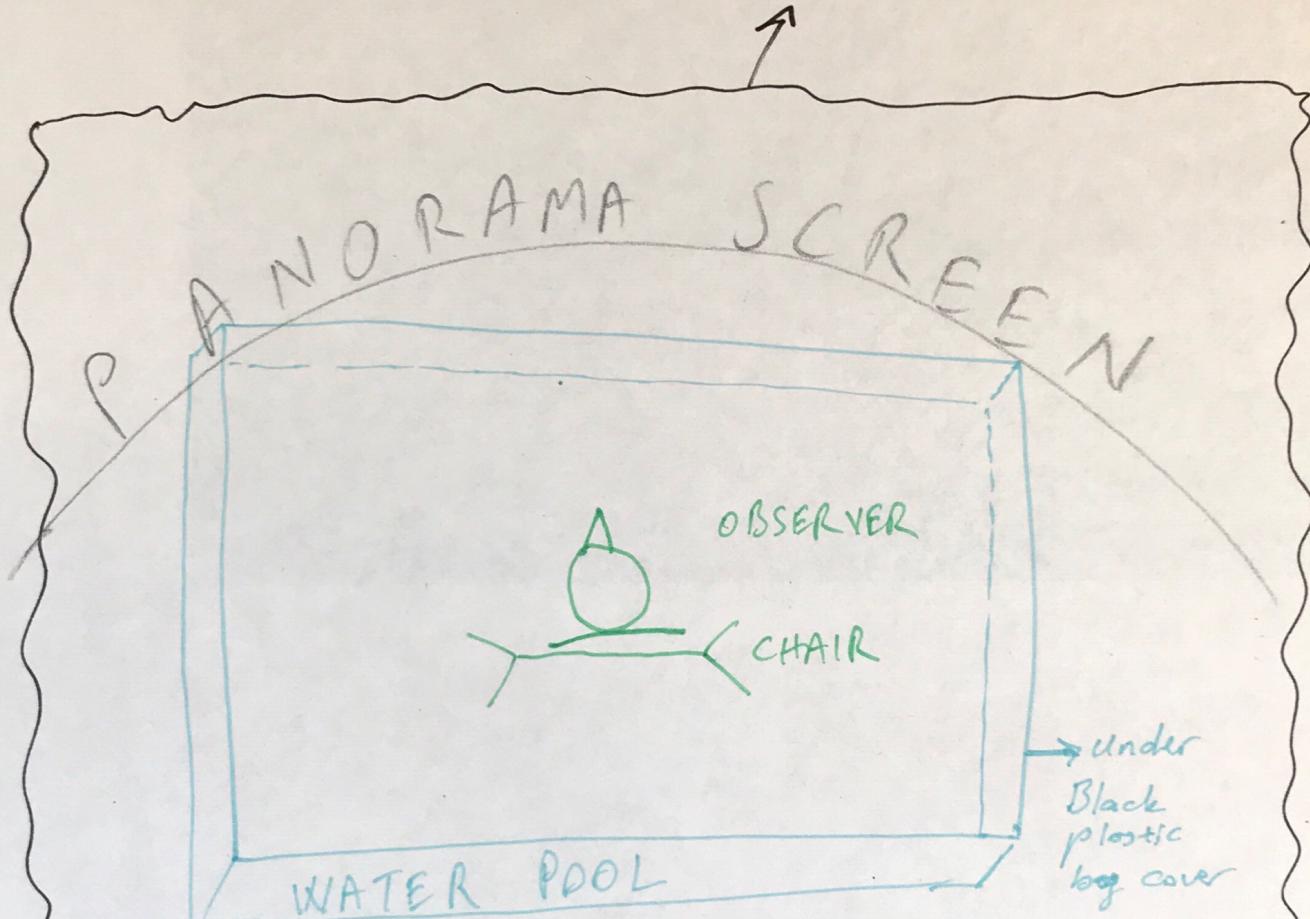

DMS CORRIDOR

(2)

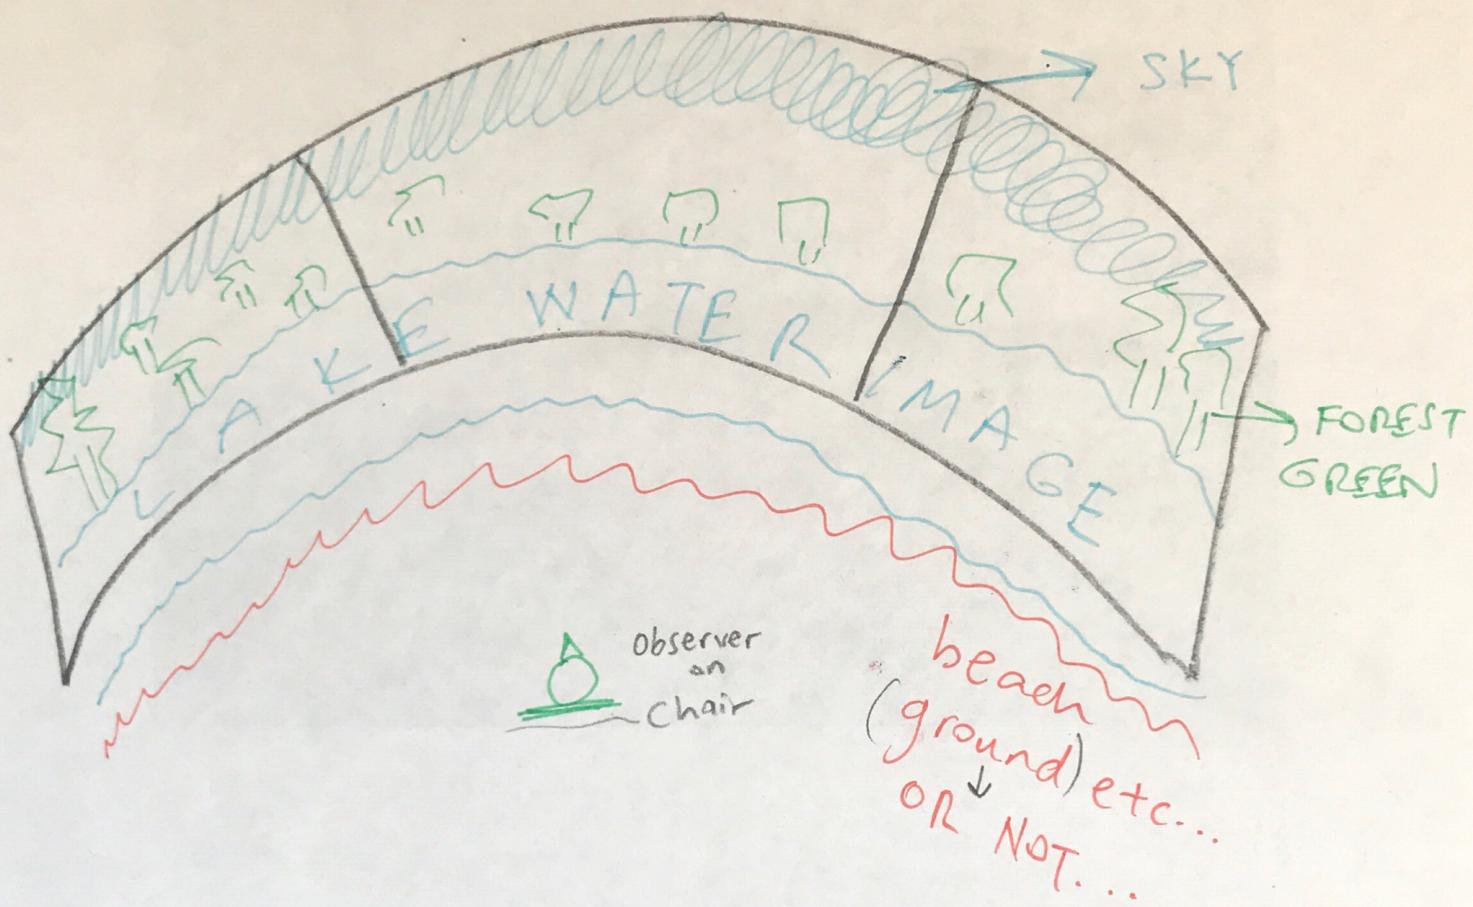

③

(Black plastic bag covers ground
almost all studio for water
spill.)

BIG ENOUGH 2 feet ~~long~~ high
water tank for observer's foot.
At the bottom ~~sea~~ sea sand. Fill with
water.

④ WHAT WILL BE ON SCREENS :

NOTE: Ridvan is going to put video images on both screens.
Ye is preparing to put computer images on both screens.
Both video and computer images might be too distorted
on panorama screen. Available computer programs or/and specific
projectors ~~or~~ may apply to fit images on panorama
screen. Especially the edges of bottom on panorama is
important to fuse image and the real water, ground for believing
